"Translational genomics of medulloblastoma: advances in predisposition, stratification, & diagnosis"

Paul A. Northcott, Ph.D.
Associate Member
Department of Developmental Neurobiology
Comprehensive Cancer Center
St. Jude Children’s Research Hospital

LEARNING OBJECTIVES:

Upon completion of this activity, participants should be able to:

1. To describe the landscape of known and novel hereditary predisposition genes in medulloblastoma.
2. To describe the relevance of molecular classification in the design and interpretation of clinical trial outcomes for children with medulloblastoma.
3. To describe novel liquid biopsy approaches for detection of minimal residual disease and prediction of progression in children with medulloblastoma.

Speaker Disclosure:
Dr. Northcott has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose. Conflict of interest information for the CME Advisory Committee members can be found on the following website: https://cme.ufl.edu/disclosure/.

Accreditation: The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit: The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
