UFHealth
CANCER CENTER

WEDNESDAYS | SEPT. 6 - Nov. 29 | 2-3 P.M.

12-PART LECTURE SERIES | VIRTUAL

BIOSTATISTICS AND BIOINFORMATICS 101 FOR CANCER RESEARCH
BEST PRACTICES FOR DATA

OVERVIEW

Understanding biostatistics and computational biology is paramount for cancer research. This class aims to introduce the best practices for data and promote rigorous and reproducible scientific approaches for cancer research.

Download syllabus.

INTENDED AUDIENCE

Clinicians, fellows, cancer researchers and students looking for an introduction to or refresher on basic biostatistical principles.

REGISTRATION

Free and open until Sept. 3 at bit.ly/BioStat101. Registrants may choose to attend only selected lectures. However, certificates will only be awarded to participants who attend and complete the associated assignment for 10 or more of the 12 lectures.

INSTRUCTORS

The lectures will be presented by the faculty and staff of the Division of Quantitative Sciences.
